

## REPORT ON VOLLEYBALL

Don Bosco College of Engineering Fatorda participated in the volleyball tournament organized by Goa University. The men's team played their first game against GMC, receiving a walkover, followed by a match against Sanquelim College, which unfortunately ended in a loss. Similarly, the women's team faced tough competition, losing to DMC College Assagao. Despite the outcomes, our teams showcased sportsmanship and resilience. We commend their efforts and dedication on the court, and we look forward to future opportunities for improvement and success in volleyball tournaments.
